AN INJECTOR FOR GASEOUS FUEL

5 An injector for gaseous fuel, the injector
comprising a body (1) provided with a fuel feed duct (5)
and with a fuel delivery duct (6), the feed duct (5) and
the delivery duct (6) opening out into a chamber (4) of
the body (1) in which there are mounted a valve member
10 (16) and actuator means (18, 19) for actuating the valve
member (16) between a closed position and an open
position in which the valve member (16) defines a fuel
flow section, the delivery duct (6) including a
calibrated segment (10) of section smaller than the flow
15 section defined by the valve member (16) when in the open
position.
